ABOUT GREAT AI

In The MetaVerse, encounter nft and the Digital World like never before.

Join the GREATAI revolution and witness a paradigm shift in the world of cryptocurrency. With its foundation built on the robust Binance Chain, GREATAI is set to redefine the possibilities of digital finance.

With a maximum supply of 1000000000000 tokens and a strategic burn of 5100000000000 tokens planned for this year, GREATAI ensures scarcity and value preservation. Rest assured, your investments will be safeguarded with 100% locked liquidity and a meticulous vesting schedule for team tokens.

But GREATAI offers more than just a secure investment opportunity. GREAT DANE AI, the visionary force behind GREATAI, has designed a comprehensive ecosystem that goes beyond the boundaries of traditional finance.

Prepare to delve into the world of non-fungible tokens (NFTs), where you can mint and trade unique digital assets that hold intrinsic value. Participate in thrilling lotteries for a chance to win big, and enjoy exciting airdrops that reward early supporters.

Join us on this transformative journey and witness firsthand how GREATAI merges innovation with profitability, creating a sustainable future where financial empowerment is within everyone's reach.

Get ready to embrace the power of GREATAI and seize the opportunities of a lifetime. The future of cryptocurrency starts here!

WE ARE TRANSFORMING THE ENTIRE ECOLOGY!

Transparency, authentication, ownership, provenance, copyright, and forgery have all been issues in the nft industry for a long time. Moreover, the industry has historically been restricted to the elite who can manage to **invest millions of dollars** on a single piece of nfts and meta industry. On the other hand, it is unquestionably intended to be enjoyed by everyone, and it can transcend all social and economic barriers.

Fortunately, with our designed ecosystem, the obstacles outlined above are nearly resolved. And, as of today, the gaming and collectibles industry has created and effectively deployed amazing and sophisticated NFTs. **We are ready for the transformation in the way nfts are purchased, marketed, sponsored, loved, and even made.**

OUR VISION

Our mission at **GREATAI** is to ignite a **financial revolution** and empower individuals with the tools and opportunities to conquer their financial destinies. Through groundbreaking blockchain innovation, we provide **unparalleled access, unwavering security**, and abundant rewards for ultimate financial freedom.

With **NFTs that unlock the limitless potential of digital assets**, staking that fuels passive income streams, exhilarating lotteries that offer life-changing opportunities, and generous **airdrops** for our dedicated supporters, we pave the way for wealth creation like never before.

As we expand our reach across multiple chains, we are committed to breaking down barriers and ensuring that **financial empowerment** is within reach for all.

Join us on this **transformative journey**, reshape the very foundations of finance, and embrace a future where digital triumph becomes a reality.

Current Challenges

NFTs are not self explanatory

DEX (Decentralized Exchanges) and DEFI (Decentralized Finance) protocols can be confusing for first-time users for some of the following reasons:

- A digital wallet is required, which unfortunately for most is not the easy part.
- The NFT industry then needs to be connected to numerous websites and the right chain. If this is not actioned with caution, loss of funds could be the result.
- User experience (UX) is often regarded as poor, with tokens often not showing automatically.
- Most tokens need to be added manually by entering the token address, which can be difficult for those who lack technical knowledge.
- Most wallets do not show the liquidity pools and farms users have entered, making it unclear how those assets perform.

All of the above leads to the requirement of multiple third-party tools and platforms, making the space a difficult beast to tame.

NFT Values

1- Limited

The shortage of NFTs adds to their appeal. NFT developers may build an unlimited number of non-fungible tokens, and they often modify the tokens to keep interest up.

2- Indivisible

The majority of NFTs are indestructible into smaller units. You will not be able to purchase a digital item until you pay the full fee.

3- Unique

NFT is completely safe and accurate because it has a robust information tab. This feature makes the NFT more unique and potent.

GREAT AI UTILITY!

As an NFT-based organization that operates according to pre-written business rules and processes, without the need for any central authority or intermediaries. This means that the organization can operate autonomously and without bias, as all decision-making will be performed by its community of token holders. This ensures that funds are distributed transparently and in a fair, unbiased manner.

Amid control and less and less opportunity for articulation, offering individuals alternatives is significant. We need to change that and deal with a protected stage where the main objective is to get information, share, examine, and instruct. Realizing what doesn't hurt nature and individuals.

Each bought GREAT AI NFT has a mystery capability with which the holder gets specific things in the computerized world and reality. after some time, the singular things will be uncovered.

Our ultimate goal is to create a world where NFT ownership is not just about owning a cute pet but also a valuable investment that brings joy and excitement to people's lives.

GREAT AI TOKENOMICS

TOTAL TOKENS
1,00,000,000,000,000

Burn in 2023 -----51,000,000,000

Tax on BUY liquidity----- 4%

TAX on sell reward(USCD)----- 4%

MISC Fees----- 2%

LIQUIDITY LOCK(1 year)-----98%

FAQS

What exactly is NFT art?

An NFT is a digital asset based entirely on the digital universe it cannot be touched, yet it may be owned. An NFT may be any digital material, including artwork, articles, music, and memes like Disaster Girl, the original picture of which sold for \$500k earlier this year.

Are NFTs easy to use?

Digital assets are identical to in-app purchases of things in video games. The main distinction for NFTs is their uniqueness and ability to be quickly transferred to a new owner due to blockchain technology. Each NFT issued is a verifiable one-of-a-kind asset worth as much as someone is prepared to pay for it.

Is it possible to get wealthy with NFT?

It is not just for creators to sell NFTs. Some enterprises use NFTs like stocks to profit by purchasing and selling them.

Why are NFTs so valuable?

NFTs are useful because they authorize a non-fungible item. As a result, these assets are one-of-a-kind. While anybody may manufacture replicas of his paintings, the original is priceless and one-of-a-kind. NFTs make digital content irreplaceable and hence valuable.

FAQS

How are NFTs minted, and can you make your own?

Yes, anyone who can create NFTs. If you want to sell your NFT online, you may select Opensea, Magic Eden, Solanart, and Solsea which are among the most well-known.

Is it possible to sell NFT without minting?

The new OpenSea collection manager enables creators to create NFTs with no upfront gas cost since the NFT is not sent on-chain until the first purchase or transfer is made.

What does the term „whitelist“ in NFT mean?

In the NFT universe, whitelisting often implies that a crypto wallet address (i.e., a public SOL address) has been pre-approved for the minting of NFTs on specific dates/times (usually a date/time range).

In the future, what can NFTs be utilized for?

NFTs are also used to acquire digital land in virtual worlds and next-generation music ownership, licensing, and publication. Some experts predict that NFTs may provide access to special deals or limited-edition items in the future.
